

CAPABILITY STATEMENT

Security & connected technology

CAGE: 133R9 | UEI: XFZRGHY62P93

Commercial. Residential. Public Sector.

Apex Alarms provides integrated security, surveillance, automation, and network infrastructure for homes, businesses, and public facilities. We coordinate practical solutions around each project's scope, site conditions, and operational needs.

CORE CAPABILITIES

Intrusion & alarm systems

Detection, sensors, and monitoring solutions.

Mobile surveillance trailers

Temporary coverage for jobsites and staging areas.

Network infrastructure

Structured cabling, wired and wireless connections.

Video surveillance

Cameras, recording, remote viewing, and video monitoring.

Access control

Door access, credentials, and user permissions.

Fiber infrastructure

Installation, fusion splicing, and termination.

CUSTOMER & PROJECT EXPERIENCE

- Coast Guard security projects and other federal locations
- State agencies and local government customers
- Multiple K-12 schools and houses of worship
- Thousands of customers across residential, commercial, and public facilities

PROJECT APPROACH

Scope review • System coordination • Installation planning • System walkthroughs
Regional service: Louisiana and Southeast Texas. Austin & Hays County coming soon.
For other project locations, contact Apex to discuss scope and scheduling.
